<td>10.2: ENLIGHTENMENT, REVOLUTION, AND NATIONALISM: The Enlightenment called into question traditional beliefs and inspired widespread political, economic, and social change. This intellectual movement was used to challenge political authorities in Europe and colonial rule in the Americas. These ideas inspired political and social movements. (Standards: 2, 3, 5; Themes: MOV, TCC, GEO, SOC, GOV, CIV)</td>
<td>10.2b Individuals used Enlightenment ideals to challenge traditional beliefs and secure people’s rights in reform movements, such as women’s rights and abolition; some leaders may be considered enlightened despots. Students will explore the influence of Enlightenment ideals on issues of gender and abolition by examining the ideas of individuals such as Mary Wollstonecraft and William Wilberforce. Students will examine enlightened despots including Catherine the Great.</td>

UNIT 10.2| Enlightenment, Revolution, and Nationalism| SQ 4. *What effect did the Enlightenment have on social reform movements and monarchs in the 18th century?*
Objective: What effect did the Enlightenment have on social reform movements and monarchs in the 18th century? Explain how Enlightenment ideas influenced the women’s rights and abolition movements in England and Enlightened Despots.

Introduction:

Directions: For each of the groups below, predict how they might have reacted when they read the ideas of the Enlightenment Thinkers.

<table>
<thead>
<tr>
<th>Women</th>
<th>Supporters of the Slave Trade</th>
<th>Monarchs</th>
</tr>
</thead>
</table>

1. How might women react to the ideas of the Enlightenment?
2. How might supporters of the slave trade react to the ideas of the Enlightenment?
3. How might monarchs react to the ideas of the Enlightenment?

The ideas of the Enlightenment sparked social reform movements in the 18th century and continue to fuel them today. Two of those reform movements were the women’s rights movement and the abolition movement.
The Roots of Feminism and Women’s Rights Movements

➡ Directions: As you read through the information about the Women’s Rights movements below, draw a 🌟 wherever you see evidence of an Enlightenment idea then complete the task that follows.

Throughout most of history, women were treated as inferior to men and those actions were supported by ideas in culture, religion, and law. In 18th century Europe, women were not as educated as men, and they were restricted by laws and customs that made women look to marriage as a means of stability and made them dependent on men. Due to their favored position in society, men were able to excel in public life and in science, philosophy, religion and politics, while women were expected to marry, have children, and take care of the home.

Using Enlightenment ideas, some women, including Mary Wollstonecraft, argued for more equal rights for men and women. Mary Wollstonecraft (April 27, 1759 – September 10, 1797) was a British intellectual, writer, philosopher, and early feminist. She wrote several novels, essays, and children’s books, but is best known for her book, *A Vindication of the Rights of Woman* (1792).

Wollstonecraft argued that all men and women had equal natural rights, and that an ideal society could not be realized until everyone was free to exercise those rights. She spoke out against the situation of women in the eighteenth century, declaring that they were educated to be submissive [obedient] to men and to value physical attractiveness over character and intelligence.

19th and 20th Century Women’s Rights and Suffrage Movement in the United Kingdom (England)

The writings of Mary Wollstonecraft and others in the 18th century inspired women later in history to fight for equal rights. Women led campaigns to improve education for girls, child custody and property rights, career options for women, and the right to vote (suffrage).

Leaflet Text:

Australian Women Explain: "Why We Want the Vote"

We Women of Victoria appeal to you, the men, the electors in the Colony, to secure for us the right that you have won for yourselves - THE RIGHT TO VOTE.

DEMOCRATS!
Remember that Democracy means Government by the People, and not Government by Half the People.

We want the Vote for the Same Reasons that You want it!

1. WE ARE TAXED - Taxation without representation is tyranny.

2. WE HAVE TO OBEY THE LAWS - Therefore we should have a voice in making them.

DEMOCRATS!
Pledge your member to Secure for the Women of Victoria the same Political Right as is Possessed by the Women of South Australia and West Australia.

Identify three examples of Enlightenment ideas in the information and sources about Women’s rights movements in the 18th and 19th centuries.
The Abolition Movement Starts in England

Directions: As you read through the information about the Abolition Movement below, draw a 🌟 whenever you see evidence of an Enlightenment idea then complete the task that follows.

Soon after the colonization of the Western hemisphere, European countries started importing slaves from Africa to work in mines and on farms in the new world. During the course of the 18th century the British made the Atlantic slave system more efficient. It has been estimated that between 1700 and 1810, British merchants transported almost three million Africans across the Atlantic. British slave traders and those who owned companies that benefited from the slave trade became wealthy because of it, while others in Great Britain led the struggle to bring the system to an end.

Several groups who found the practice of slavery immoral petitioned [asked] the British government to stop trading slaves in the 1700s, but It was the Society for the Abolition of the Slave Trade, organized in May 1787, that had the greatest impact. Led by Thomas Clarkson and William Wilberforce, the Society for the Abolition of the Slave Trade organized abolitionists, made speeches, released newsletters, and lobbied politicians to gain support for the end of slavery in the British Empire.

Eventually, in 1807 they were successful in getting Parliament to pass a law outlawing slavery and the slave trade in England and all of the British colonies. While slavery was officially illegal, people of African descent were not yet treated equally.

Enlightened Despots: The Enlightenment’s Effects on Monarchs

**Directions:** As you read through the information about Enlightened Despots and Catherine the Great below, draw a 🌟 wherever you see evidence of an Enlightenment idea then complete the task that follows.

In the mid-late 1700s, Enlightenment writings circulated around Europe. Some of those reading the ideas of Locke, Rousseau, Montesquieu, and Voltaire were monarchs. Most rulers found Enlightenment ideas dangerous and banned them, but some kings and queens, who historians call **ENLIGHTENED DESPOTS**, incorporated Enlightenment ideas into their rule.

**ENLIGHTENED** + **DESPOT**

Influenced by the writings of the Enlightenment philosophers who supported natural rights, the separation of power in a government, the consent of the governed, social contract, and the freedom of expression.

Several monarchs that ruled in northern and central Europe in the 18th century are referred to as **Enlightened Despots**. Of those, **Catherine the II (the Great) of Russia** was the most well known.

**Catherine the Great of Russia**

*Catherine II, also known as Catherine the Great (Russian: Екатерина Великая or Yekaterina II Velikaya, born Sophie Augusta Fredericka of Anhalt-Zerbst; May 2, 1729 – November 5, 1796) reigned as Empress of Russia for more than three decades, from June 28, 1762 until her death in 1796. She is one example of an "enlightened despot" and was one of the most powerful and successful women rulers, who, like Elizabeth I of England and Isabella of Castile left a permanent mark on her nation, extending territory and supporting art and learning.

Catherine read the works of Enlightenment thinkers and considered herself a "philosopher on the throne" though she ruled Russia like an absolute monarch. She declared her love for the Enlightenment ideals of liberty and

---

freedom, but also enacted laws that tied Russian serfs (slaves) to their land and their lord, treating them like property and preventing them from having what John Locke referred to as “natural rights.”

Catherine supported the arts, literature, and education. She wrote comedies, fiction, and memoirs. She corresponded with Voltaire for fifteen years until his death, though she never met him face-to-face. Demonstrating her fondness for Voltaire and the ideas of this contemporaries, she acquired his collection of books from his heirs and placed it in the Imperial Public Library.

Within a few months of becoming queen, upon hearing that the publication of the famous French Encyclopedie was in danger of being stopped by the French government because it did not include religious ideas supported by the Catholic Church, she proposed to Diderot that he complete his great work in Russia under her protection.

Catherine also wrote a manual for the education of young children, drawing from the ideas of John Locke. She also founded the famous Smolny Institute for noble young ladies. This school was to become one of the best of its kind in Europe, and broke ground by admitting young girls born to wealthy merchants alongside the daughters of the nobility.

In addition, she attempted to embody the principles of the Enlightenment in laws. A Grand Commission, acting as a parliament, composed of 652 members of all classes—officials, nobles, burghers [wealthy members of town or city] and peasants and of various nationalities—was convened in Moscow to consider the needs of the empire and ways to address them. The laws proposed by the commission were influenced by Montesquieu, but were never enacted.
